

Steelcase

Ology™ Walkstation

Work should be a moving experience. Designed to promote wellbeing in the office, Ology Walkstation combines a height-adjustable desk and treadmill to activate body and mind while handling a range of business tasks. Employees are an organization's greatest investment. Offering people opportunities to move and change posture helps bring out their best.

Features + Adjustability

Ology™ Walkstation brings new energy to work.

Choose your best day

Ology Walkstation increases the choice and control people have over how they spend their workday. It's an invitation to stride toward wellbeing goals while staying productive: Movement is known to improve alertness, boost mood and spark the creativity important to success and satisfaction at work.

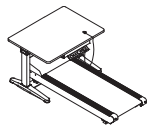

Walk with confidence

Like all Steelcase products, the Ology Walkstation undergoes rigorous testing to meet and exceed the highest performance and safety standards. Take each step with confidence and expect to put a lot of miles on this machine.

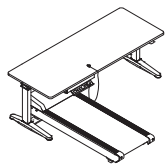

Sit, stand, walk in a single space

The Ology Sit-to-Walkstation features an extended worksurface with room for a chair. Transition from sitting to standing to walking, quickly and comfortably – all within the footprint of this high-performance personal workspace.
