

Elan

A classic occasional table family

orangebox

Product Description

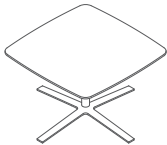

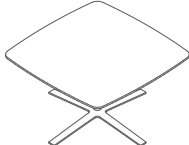

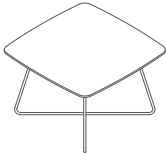

The clarity and simplicity of Elan's design has ensured its continuous popularity across multiple applications.

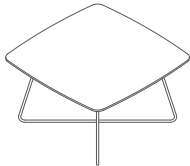

A classic occasional table, with the option of a wood or melamine top, Elan can be used at occasional height when specified on a wire frame base, and at both occasional and work heights when specified on the flat Smartworking four-star ski base. Elan's simplicity and adaptability mean it can be used almost universally, whatever your requirements.

In line with our other occasional tables, both tops and metal frames come in our standard range of finishes.
